South Fork High School
HAPPY HOLIDAYS!

Dear South Fork Families:

It is so great to have some kids on campus! I have talked to many of them and they have all stated it was great to be back. The staff also expressed how positive it is to have kids on campus. I know I have said this before, but the kids bring an energy and reaffirm the reasons we went into Education. Thank you for being great students, following the rules and bringing back this positive energy to South Fork.

The staff at SFHS continuously reviews the distance learning model. We are making improvements to ensure the students are able to access the packets as well as using a more organized way to have students return completed work.

Also, we are continuing to work through the Hybrid model and continue to hope that we can move toward this model in the near future. There are a lot of situations that are changing in Humboldt County, as we all know. Because of the rising numbers in COVID cases, our original start date may be pushed out a little longer than we originally thought. No decision has been made on this, and we are waiting further State and County guidelines. Our main concern is the safety of the students, staff and their families.

Student mental health continues to be a concern for us. We want to reiterate that if your student is struggling with anxiety, depression or you feel that they need assistance, please reach out to us. We have counselors available and the referral process is quick and easy.

In closing, all of us at South Fork High School wish you a wonderful Holiday Season. We hope that you can enjoy the wonders and magic of the coming days in a safe and meaningful way.

As always, stay positive, test negative and Happy Holidays!

Jill Mohorovich, Principal, and all the South Fork Staff.

Dear Students and Families,

We know that Distance Learning and continued distance from our friends and family can take its toll on everyone. The holidays can be stressful enough without the added pressure of a new platform for educating our students. Please reach out if you have any concerns or are struggling! We have many counseling resources available. We can connect students to tutoring (online), advocate for students with teachers, and help with areas you are struggling in (such as time management, anxiety, etc.).

We have created a “Virtual Student Services” page on our website under the counseling tab. Please check it out. It includes a SFHS “Calm Room” with links to stress reduction techniques and other information that may be helpful in these stressful times.

Thank you to the Parents that took advantage of our Parent Conferences, keeping us connected when we are all feeling so disconnected is very important. We have been working on our “Parents’ Guide to Distance Learning” which will hopefully be live before you receive this letter in the mail. We are open to feedback and continuing to try to improve our Distance Learning program.

Students, you are missed! I am happy to help in any way I can. Call or email me! I am here for you.

I am including the California Crisis Hotline here as well.

Happy Holidays,
Brandy
